

SERIES 685B

## **ELECTRONIC VIBRATION SWITCHES**

- Multiple available outputs:
  - Two independent alert and alarm relays
  - 4-20mA signal
  - Analog, 100mV/g raw vibration signal
- Configurable model with choice of accelerometer configuration, measurement range, power supply, relay type, enclosure type and enclosure connection ports.
- Adjustable time delays prevent false trips during unit start-up and chance occurrences of short term vibration spikes.
- Compatible with PLC, DCS and SCADA systems for data trending.
- Hazardous area approved versions available.

## DESIGNED TO PROVIDE CONTINUOUS MACHINERY PROTECTION

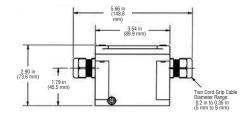

Electronic vibration switches offer highly-accurate continuous monitoring with excellent repeatability and reliability. They require power to operate and utilize an input signal provided by an electronic vibration sensor. The fully-configurable switch can either utilize either a built-in pellet accelerometer or be wired to a remote accelerometer.

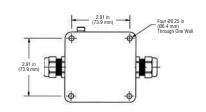

## **APPLICATIONS**

- Cooling Tower
- Evaporative Condensers
- Steam Condensers
- Air-Cooled Heat Exchangers (Fin-Fans®)
- Large Blowers and Fans

| SPECIFICATIONS  Model Number | 685B Series                    |  |  |
|------------------------------|--------------------------------|--|--|
| Performance                  | 0000 001103                    |  |  |
| Measurement Range            | Configurable                   |  |  |
| Frequency Range (± 3 dB)     | 2 to 1000 Hz                   |  |  |
| Relay                        | Latching/Non-Latching          |  |  |
| Relay                        | Normally Open/Closed           |  |  |
| Relay- Alert                 | Configurable                   |  |  |
| Relay- Alarm                 | Configurable                   |  |  |
| Setpoint- Alert              | 10 to 100% of Vibration Range  |  |  |
| Setpoint- Alarm              | 10 to 100% of Alarm Setpoi     |  |  |
| Delay- Power On              | 20 sec                         |  |  |
|                              |                                |  |  |
| Delay- Alert                 | Configurable                   |  |  |
| Delay- Alarm                 | Configurable                   |  |  |
| Acceleration Output          | 100 mV/g                       |  |  |
| (±10%)                       | 10.2 mV/(m/sec <sup>2</sup> )  |  |  |
| Current Output               | 4-20 mA                        |  |  |
| Control Interface            |                                |  |  |
| Reset Function               | Configurable                   |  |  |
| Self Test Function           | Yes                            |  |  |
| Time Delay Adjustment        | Single Turn Potentiomet        |  |  |
| Power LED                    | Green                          |  |  |
| Alarm LED                    | Red                            |  |  |
| Alert LED                    | Yellow                         |  |  |
| Environmental                |                                |  |  |
| Temperature Range            | -22 to +158 °F                 |  |  |
| (Continuous)                 | -30 to +70 °C                  |  |  |
| Temperature Range            | -40 to + 257 °F                |  |  |
| (Storage)                    | -40 to +125 °C                 |  |  |
| Hazardous Area Approval      | Configurable                   |  |  |
| Enclosure Rating             | NEMA 4X and IP66               |  |  |
| Electrical                   |                                |  |  |
| Power Required               | Configurable                   |  |  |
| Current Consumption          | < 150 mA                       |  |  |
| External Calibration Input   | 4-20 mA                        |  |  |
| Physical (not applicable     | to enclosure type C1)          |  |  |
| Sensing Element              | 100 mV/g ICP®<br>Accelerometer |  |  |
| Housing Material             | Aluminum Alloy                 |  |  |
| Mounting Torque              | 4.1 ft-lb                      |  |  |
| (Cover Screw)                | 5.7 N-m                        |  |  |
| Mounting Screw               | 2 to 5 ft-lb                   |  |  |
| (Base)                       | 3 to 7 N-m                     |  |  |
| Electrical Connector         | Screw Terminals                |  |  |
| Screw Terminal Wire          | 24-14 AWG                      |  |  |
| Size                         | 0.2 -2.5 mm <sup>2</sup>       |  |  |
| Cable Input                  | Configurable                   |  |  |
|                              | 0.21 in                        |  |  |
| Mounting Hole Size           | 5.4 mm                         |  |  |
| Size (W x H x D)             | 3.5 x 2.8 x 3.5 in             |  |  |
| OIZO (VV A II A D)           | 90 x 70 x 90 mm                |  |  |
|                              | 1.85 oz                        |  |  |
| Weight                       | 020 am                         |  |  |

|  |  |   |  |   |                  | 0 Two ports with cord grips   |  |  |
|  |  |   |  |   |                  | 1 Two ports with 1/2" NPT conduit hubs  |  |  |
|  |  |   |  |   |                  | 2 One port with cord grip   |  |  |
|  |  |   |  |   |                  | 3 One port with 1/2" NPT conduit hub  |  |  |
|  |  |   |  |   |                  | 4 Two 1/2" NPT ports (Must select C1 enclosure type)                              |  |  |
|  |  |   |  |   |                  | 5 Two ports with cord grip on left, conduit on right                              |  |  |
|  |  |   |  |   |                  | 6 Two ports with cord grip on right, conduit on left                              |  |  |
| Notes:   |  |   |  |   |                  |   |  |  |
|  |  |   |  |   |                  | with CSA Class I, Division 2 hazardous area approval.                             |  |  |
| CSA Class I, Division 2 approval supplied standard for switches where all options are black. |  |   |  |   |                  |   |  |  |

IMI Sensors, a division of PCB Piezotronics, Inc. manufactures industrial vibration monitoring instrumentation, such as accelerometers, vibration transmitters and switches that feature rugged stainless steel housings and survive in harsh environments like paper and steel mills, mines, gas turbines, water treatment facilities and power plants. Integrating with portable analyzers and PLC's, IMI instrumentation helps maintenance departments reduce downtime and protect critical machinery. Visit IMI Sensors at www.pcb.com. PCB Piezotronics, Inc. is a wholly owned subsidiary of MTS Systems Corporation. Additional information on MTS can be found at www.mts.com.
